Cover

Norway: Gold 20 kroner, 1910

Newly independent states typically issue coins which celebrate independence by emphasizing something particular to the nation or to its people. When the Kingdom of Norway achieved independence from Sweden on 26 October 1905, new designs were gradually introduced on all coin denominations from the bronze 1 ore to the gold 20 kroner – this month's cover coin.

Struck at the Kongsberg mint in Norway, this coin, dated 1910, portrays Norway's newly elected king, Haakon VII. On the reverse stands Norway's patron, Saint Olaf, holding a battle-axe and royal orb, all atop a creature representing Olaf's enemies. The design is surrounded by the legend *Olav Den Hellige*, or Olaf the Holy, and the denomination.

Saint Olaf, or Olaf II Haraldsson, was king of Norway from 1016-1028. He promoted Christianity among the largely pagan populace of his country, and he cultivated support among the nobles, to become one of Norway's first rulers with effective control over the entire country. In 1028 Canute, king of England and Denmark, invaded Norway and drove Olaf into exile. Two years later Olaf was killed at the battle of Stiklestad, attempting to recapture his country with Swedish aid. In 1031 Olaf was canonized. His feast day is celebrated on 29 July, the anniversary of his death.

About the size of a Canadian 25-cent piece, this coin forms part of the National Currency Collection, Bank of Canada. Photography by James Zagon, Ottawa.

Couverture

Norvège : Pièce d'or de 20 couronnes, 1910

La plupart des États accédant à l'indépendance émettent pour célébrer leur nouveau statut des pièces qui reflètent un trait particulier du pays ou de ses habitants. Lorsque le royaume de Norvège se sépara de celui de la Suède le 26 octobre 1905, il adopta graduellement de nouveaux motifs pour toutes ses pièces de monnaie, de la pièce de 1 øre en bronze à celle de 20 couronnes en or, dont le revers orne la couverture de la livraison de ce mois.

Frappée à l'atelier monétaire de Kongsberg, en Norvège, la pièce d'or de 20 couronnes porte le millésime 1910 et représente, à l'avvers, le roi Haakon VII nouvellement intronisé. Au revers est reproduit le patron de la Norvège, saint Olav, tenant une hache d'armes dans une main et le globe, symbole de la souveraineté, dans l'autre. Il foule aux pieds une créature représentant ses ennemis. Autour du dessin figurent l'inscription *Olav Den Hellige*, ou Olav le Saint, et la coupure.

Saint Olav, ou Olaf II Haraldsson, fut roi de Norvège de 1016 à 1028. Il tenta de convertir la population largement païenne de son pays au christianisme et sut s'assurer l'appui des nobles. Il devint ainsi l'un des premiers souverains de la Norvège à être effectivement maître du pays entier. En 1028, Canut, roi d'Angleterre et du Danemark, envahit la Norvège et exila Olav. Deux années plus tard, Olav fut tué à la bataille de Stiklestad dans sa tentative de reconquérir son pays avec l'appui de la Suède. Olav fut canonisé en 1031. Sa fête est célébrée le 29 juillet, jour anniversaire de sa mort.

La pièce reproduite en couverture est à peu près de la même dimension qu'une pièce canadienne de 25 cents. Elle fait partie de la Collection nationale de monnaies, Banque du Canada. Photographie : James Zagon, Ottawa.

Subscriptions

Canada and the United States: \$10.00 (Canadian) per annum; all other countries: \$12.00 (Canadian) per annum.

Public libraries, libraries of the Government of Canada and of Canadian provincial and municipal governments (including Crown corporations and agencies), libraries of Canadian and foreign educational institutions: one half of the regular rate.

Subscription rates include the cost of postage.

Reprints of articles are available at a price of \$1.00 (Canadian) for 10 copies of any one article. Individual copies of the Review may be obtained at all Bank of Canada Agencies at a price of \$1.00 (Canadian) per copy. Remittances should be made payable to the Bank of Canada.

Bridge financing arrangement for Poland

The Bank of Canada, with the concurrence of the Minister of Finance, is participating in a short-term bridge financing arrangement for Poland. The operation, announced today by John W. Crow, Governor of the Bank, involves a total amount of U.S.\$500 million, which is being provided to the Narodowy Bank Polski, Poland's central bank, by the monetary authorities of a group of industrial countries.

The Bank of Canada's share – U.S.\$20 million – is being provided, as are the shares of a number of other central banks, with the co-operation of the Bank for International Settlements. The Bank of Canada has participated in a number of similar short-term bridge financing arrangements since 1982.

le 2 janvier 1990

Octroi d'un crédit-relais à la Pologne

La Banque du Canada participe, avec le consentement du ministre des Finances, à une opération de financement visant à accorder un crédit-relais à court terme à la Pologne. Cette opération, annoncée aujourd'hui par le gouverneur de la Banque du Canada, M. John W. Crow, porte sur un montant global de 500 millions de dollars É.-U., qui sera fourni à la Narodowy Bank Polski, la banque centrale de la Pologne, par les autorités monétaires d'un groupe de pays industriels.

La part de la Banque du Canada, qui s'élève à 20 millions de dollars É.-U., de même que les parts d'un certain nombre d'autres banques centrales seront versées par l'entremise de la Banque des Règlements Internationaux. La Banque du Canada a participé à plusieurs opérations similaires de crédit-relais à court terme depuis 1982.

Symbols used in charts and tables

A arithmetic scale
 L logarithmic scale
 E estimated
 P preliminary
 R revised
 N not available
 C corrected

Owing to the rounding of figures, components may not always add to the totals shown. A horizontal rule in the body of the table indicates either a break in the series or that the earlier figures are available only at a more aggregated level.

Abréviations utilisées dans les graphiques et les tableaux

A Échelle arithmétique
 L Ordonnées logarithmiques
 E Estimations
 P Chiffres provisoires
 R Chiffres révisés
 N Chiffres non disponibles
 C Chiffres corrigés

Du fait que les chiffres sont arrondis, l'addition des éléments d'un tableau ne correspond pas toujours exactement au total indiqué. Une ligne horizontale dans le corps d'un tableau indique soit qu'il y a une rupture dans une série, soit que les données des périodes antérieures n'existent que sous une forme plus agrégée.

*Due to changes in accounting procedures, data for April 1986 and subsequent months are not strictly comparable with those for earlier periods. In particular, unemployment insurance contributions before April 1986 are included in Specified Purpose Accounts.

†Fiscal year totals are from the audited Public Accounts of Canada, while monthly data are from the unaudited "Statement of Financial Operations" published in the Canada Gazette. The sum of the monthly data for a fiscal year is likely to differ from the annual totals taken from the Public Accounts.

*À cause des modifications apportées aux méthodes comptables, les chiffres d'avril 1986 et des mois suivants ne sont pas tout à fait comparables à ceux des périodes précédentes. Il est à noter que les cotisations versées à l'assurance-chômage avant avril 1986 figurent sous la rubrique des Comptes à fins déterminées.

†Les données de l'exercice financier sont tirées des comptes publics du Canada, tandis que les données mensuelles sont tirées de l'état des opérations financières, qui est publié dans la Gazette du Canada, sans la sanction du Vérificateur général. Il est fort probable que les sommes des données mensuelles d'un même exercice diffèrent des chiffres annuels tirés des comptes publics.

Special features of a number of issues are as follows:

- (a) This item represents the cancellation of securities held by purchase funds.
- (b) Callable after 15 September 1996.
- (c) On 18 March 1975 the Government of Canada announced that the 3% perpetual bonds will be redeemed at par on 15 September 1996.
- (d) Callable after 1 April 1988.
- (e) Callable after 15 October 1988.
- (f) Canadair debt assumed by the Government of Canada; the 12½% notes were originally issued on November 15, 1982 and the 8½% notes on April 26, 1982.
- (g) This item represents the cancellation of securities held by Securities Investment Account.

Les renvois ci-dessous indiquent les particularités de certaines émissions :

- (a) Annulation de titres détenus par le fonds de rachat.
- (b) Remboursables par anticipation après le 15 septembre 1996.
- (c) Le 18 mars 1975, le gouvernement canadien a annoncé que les rentes perpétuelles 3 % seront remboursées à leur valeur nominale le 15 septembre 1996.
- (d) Remboursables par anticipation, après le 1^{er} avril 1988.
- (e) Remboursables par anticipation, après le 15 octobre 1988.
- (f) La dette de Canadair a été assumée par le gouvernement canadien; les billets 12½ % avaient été émis le 15 novembre 1982 et les billets 8½ % le 26 avril 1982.
- (g) Annulation de titres détenus par la Caisse de placements.

*Users of these measures of capacity utilization are advised to refer to the discussion of them in the May 1980 issue of this Review "Measuring Capacity Utilization: A Technical Note". Particular attention should be paid to the discussion of how the data are to be evaluated and interpreted.

Note: The revisions to the capacity utilization rates are due to revisions by Statistics Canada to constant-dollar GDP and net capital stocks by industry. The latter have been revised in line with the survey of private and public investment intentions for 1989.

*Les utilisateurs des données des taux d'utilisation des capacités sont invités à se référer à l'étude qui a été publiée sur ce sujet dans la Revue de mai 1980 sous le titre : «Les méthodes d'estimation des taux d'utilisation des capacités». Il convient d'accorder une attention particulière à l'analyse de la façon dont il faut évaluer et interpréter ces données.

Nota : Les corrections apportées aux taux d'utilisation des capacités découlent des révisions que Statistique Canada a apportées aux chiffres du PIB et du stock de capital par industrie en dollars constants. Les stocks de capital ont été remaniés afin de refléter les résultats du sondage des perspectives révisées d'investissement public et privé pour 1989.

*Starting in January 1987, data taken from the Survey of Employment, Payroll and Hours are not strictly comparable with those for earlier months because of improvements in sampling methodology. Adjustment factors to calculate growth rates across this statistical break are available from Statistics Canada.

*Les données extraites de l'Enquête sur l'emploi, la rémunération et les heures de travail ne sont plus, depuis janvier 1987, tout à fait comparables à celles des mois précédents, en raison d'améliorations apportées à la méthode d'échantillonnage. Il est possible de se procurer, auprès de Statistique Canada, les facteurs de correction permettant d'obtenir des taux de croissance comparables pour les séries antérieures et postérieures à janvier 1987.

*Starting in January 1987, data taken from the Survey of Employment, Payroll and Hours are not strictly comparable with those for earlier months because of improvements in sampling methodology. Adjustment factors to calculate growth rates across this statistical break are available from Statistics Canada.

*Les données extraites de l'Enquête sur l'emploi, la rémunération et les heures de travail ne sont plus, depuis janvier 1987, tout à fait comparables à celles des mois précédents, en raison d'améliorations apportées à la méthode d'échantillonnage. Il est possible de se procurer, auprès de Statistique Canada, les facteurs de correction permettant d'obtenir des taux de croissance comparables pour les séries antérieures et postérieures à janvier 1987.

*Starting in January 1987, data taken from the Survey of Employment, Payroll and Hours are not strictly comparable with those for earlier months because of improvements in sampling methodology. Adjustment factors to calculate growth rates across this statistical break are available from Statistics Canada.

†New series.

*Les données extraites de l'Enquête sur l'emploi, la rémunération et les heures de travail ne sont plus, depuis janvier 1987, tout à fait comparables à celles des mois précédents, en raison d'améliorations apportées à la méthode d'échantillonnage. Il est possible de se procurer, auprès de Statistique Canada, les facteurs de correction permettant d'obtenir des taux de croissance comparables pour les séries antérieures et postérieures à janvier 1987.

Notes to the tables

Cansim-Databank identification numbers

Many of the time series published in the Review are available from Statistics Canada in machine-readable form, for use on computers, or in print-outs. Each time series of annual, quarterly, monthly or weekly data on the Cansim system (Canadian Socio-Economic Information Management) has an identification number. Series maintained by Statistics Canada have D or L prefixes (e.g. D1432), those maintained by the Bank of Canada have a B prefix (e.g. B318) and those maintained by Canada Mortgage and Housing Corporation have a H prefix (e.g. H48). The identification number is given as a reference at the top of each column of data and refers to the series of weekly, monthly or quarterly data in that column. Where the frequency of a series as it is available on Cansim is different from that shown in the table or where a combination of quarterly and monthly data is shown in the table, the frequency of the Cansim series is indicated by a superscript M if monthly or by a superscript Q if quarterly. Current and revised data are entered into Cansim immediately on release.

Weekly series

The tables in the Review do not cover a full year of weekly data. For all Wednesday series, in the event a holiday falls on a Wednesday, data for the preceding business day will be shown. Figures for weekly series for which the Bank of Canada is the source are available on request to the Department of Monetary and Financial Analysis, Bank of Canada, Ottawa K1A 0G9.

Notes to the tables

The reference notes to the statistical tables in the Review, which prior to 1981 were included in each monthly issue, are now printed under a separate cover. The separate section of notes will be updated and reprinted as necessary. Additional copies of the explanatory notes may be obtained by writing to the Bank of Canada Review, Public Information Division, Secretary's Department, Bank of Canada, Ottawa K1A 0G9. The latest note supplement is dated January 1989.

This section of the monthly Review will include only revisions to the notes as may be required to keep them current for users of the statistical tables, as well as the reference notes pertaining to tables that are published only occasionally in the Review.

Notes relatives aux tableaux

Cansim - Numéros de référence des séries de Databank

Nombre des séries chronologiques publiées dans la Revue peuvent être obtenues de Statistique Canada sous une forme directement exploitable par ordinateur ou sous la forme d'imprimés. Elles font partie intégrante du fichier Cansim¹, dont chaque série chronologique - annuelle, trimestrielle, mensuelle ou hebdomadaire - est identifiée par un numéro de référence. Les numéros des séries élaborées par Statistique Canada sont précédés de la lettre «D» ou «L» (par exemple : D1432), ceux des séries de la Banque du Canada, de la lettre «B» (par exemple : B318) et ceux de la Société canadienne d'hypothèques et de logement, de la lettre «H» (par exemple : H48). Dans nos tableaux, le numéro apparaît en tête de la colonne et identifie la série hebdomadaire, mensuelle ou trimestrielle qui figure dans la colonne; lorsque les fréquences de données figurant au fichier Cansim et dans un tableau de la Revue diffèrent ou que le tableau comporte à la fois une série mensuelle et une série trimestrielle, la fréquence de la série Cansim est indiquée par la lettre «M» si la série est mensuelle et par la lettre «Q» si elle est trimestrielle.

¹ Ce sigle est une abréviation de *Canadian Socio-Economic Information Management System* - Système canadien de traitement des données socio-économiques.

Séries hebdomadaires

Dans les tableaux de la Revue, les séries de données hebdomadaires ne couvrent pas une année entière. Lorsque le mercredi est un jour férié, les statistiques du mercredi sont établies à partir des données du jour ouvrable précédent. On pourra obtenir les données provenant de la Banque du Canada en s'adressant au département des Études monétaires et financières, Banque du Canada, Ottawa K1A 0G9.

Notes relatives aux tableaux

Les notes relatives aux tableaux de la Revue, qui jusqu'à la fin de 1981 étaient reproduites dans chaque livraison, sont désormais imprimées séparément. Elles seront mises à jour et publiées au besoin. Ceux qui désirent recevoir d'autres exemplaires des notes sont priés de s'adresser à la Revue de la Banque du Canada, Section de l'information, Secrétariat, Banque du Canada, Ottawa K1A 0G9. Le plus récent supplément a été produit en janvier 1989.

La présente section de la Revue ne contiendra que les mises à jour essentielles à l'interprétation des statistiques et les notes se rapportent aux tableaux publiés à des fréquences variables dans la Revue.

Rapports techniques (voir la liste aux pages suivantes)

Working Papers

Documents de travail

Technical Reports are published in the original language only, with an abstract in both official languages. Single copies of these publications may be obtained without charge by writing to: Public Information Division, Secretary's Department, Bank of Canada, Ottawa K1A 0G9. Consult the December 1982 issue of the Review for a list of the Staff Research Studies and Technical Reports published before 1980.

Technical Reports

- 18 Simulation analysis of a model based on the life-cycle hypothesis (1980)
Jean-Pierre Aubry and Diane Fleurent
- 19 The process of wage determination: A survey of some recent work (1979)
Daryl L. Merrett
- 20 Some aspects of the Canadian experience with flexible exchange rates in the 1970s (1980)
Charles Freedman and David Longworth
- 21 Two Canadian investment outlook surveys: An overview and a review (1980)
Brian O'Reilly
- 22 Building a small macro-model for simulation: Some issues (1980)
Paul R. Masson, David E. Rose and Jack G. Selody
- 23 The productivity-inflation nexus in Canada 1963-1979 (1981)
J. Peter Jarrett and Jack G. Selody
- 24 Economic projections and econometric modelling: Recent developments at the Bank of Canada (1981)
Heather Robertson and Michael McDougall
- 25 The equations of RDXF, September 1980 version (1982)
Heather Robertson and Michael McDougall
- 26 The structure and dynamics of RDXF, September 1980 version (1982)
Heather Robertson and Michael McDougall
- 27 Monetary aggregates as targets: Some theoretical aspects (1981)
Charles Freedman
- 28 A comparison of alternative methods of monetary aggregation: Some preliminary evidence (1981)
Jon P. Cockerline and John D. Murray
- 29 Investment: A survey of models with some implications for the effects of monetary policy (1981)
Francis Scotland
- 30 The leading indicator properties of surveyed consumer attitudes and buying intentions (1982)
Bruce Rayfuse
- 31 The economic significance of aspects of Canada's international payments (1982)
Kevin Clinton and David Longworth
- 32 The saving-investment approach to the current account (1982)
John T. Cuddington
- 33 An econometric model of the steel trade (1982)
Richard Dion

Les rapports techniques sont publiés seulement dans la langue utilisée par les auteurs; ils sont cependant précédés d'un résumé bilingue. On peut obtenir gratuitement un exemplaire de ces publications en s'adressant à la Section de l'information, Secrétariat, Banque du Canada, Ottawa K1A 0G9. Pour obtenir la liste des travaux de recherche et des rapports techniques publiés avant 1980, veuillez consulter le numéro de décembre 1982 de la Revue.
